## CONCEALED FASTENER METAL WALL SYSTEMS

### CLASSIC APPEARANCE WITH MODERN PERFORMANCE

The 3/4" Board & Batten Wall Panel delivers a timeless vertical aesthetic with the durability and low maintenance of metal. Continuous panels install using concealed fasteners within an integrated slotted flange. Interlocking seams secure panels to each other, delivering clean, bold shadow lines and a sleek, screw-free appearance. Ideal for architectural, commercial, and mixed-use applications, this system provides a refined exterior look while offering excellent weather resistance and long-term performance.
